Profile

An Enthusiastic student, inquisitive learner and a fast adapter interested in Web and App development, and UI / UX design with relevant work experiences. Currently studying my third year of bachelor's in information technology at The Hong Kong Polytechnic University. Seeking to leverage my collaboration, communication, and programming skills in different fields.

Experience

UI / UX designer & engineer
The Hong Kong Polytechnic University, Hong Kong, Aug 2022 – Oct 2022
Worked as a part-time Student Assistant in Information Technology Services Office (ITS) in The Hong Kong Polytechnic University.
• *Responsible for UI / UX, App logo, branding design for the new mobile application for students in The Hong Kong Polytechnic University*
• *Designed 50+ User Interface pages, and 20+ App logos.*
• *Communication with project manager and assisted App developers on App implementation on the client side using React Native, JavaScript, Android Studio.*

Web Developer intern
Wealthskey Limited, Hong Kong, May 2022 – July 2022
Worked as an intern in a start-up company that provides immigration, education and IT related services and solutions.
This project is a request from a client, which is to build a E-commerce website for the
client's company, designed and implemented completely by myself.
• *UI / UX design, logo branding design renewal*
• *UI / UX implementation and Frontend Web development using html / css(scss) / node.js / react.js, etc.*
• *Utilization of various libraries such as React Router for page routing, il8next for implementation of Multi-language function.*
• *Web hosting & publishing using netlify, Godaddy*

Education

The Hong Kong Polytechnic University • Hong Kong
Bachelor of Computer Science, Information Technology, Aug 2018 – Aug 2024
Enrolled in 2018, deferred my study from 2019 ~ 2021 to fulfill compulsory military service in South Korea. Currently active.
Award: Second Runner up in Freshman Project App development Competition
